

North Georgia New Church Network
P.O. Box 2648
Duluth, GA 30096

Funding Partnership Covenant

We desire to effectively contribute to the goal of making visible by word and deed the invisible Kingdom of God, in such a way as to transform North Georgia and through us, the nations, by the power of the Gospel. That includes establishing indigenous, healthy, growing churches that are making significant gospel impact within our cities and towns and among all our culturally diverse people groups.

We are a connectional church and in so being, we do plan to support financially the work of the church in our presbytery by giving _____ per year.

As a member church, we believe in the continuance of planting new churches in our region and to the nations. In the context of the North Georgia New Church Network, we do covenant to contribute to the NGA/NCN at least _____% of our monthly offerings as part of our benevolence budget.

We also wish to participate in the planting of churches among the nations and wish to contribute _____% of our monthly offerings as part of our missions giving. We want to designate it to _____.

We understand that our giving is completely voluntary and is being given to support the development of our presbytery, other Mission churches within the Network and church planting to the nations.
