

Dear MNA Disaster Response Partners,

It is with great excitement that we celebrate with you God's faithful provisions for the ministry of MNA Disaster Response!

**THE NEED:** When disasters happen and MNA Disaster Response is invited to coordinate the response we typically send in assessment teams ASAP to meet with local leadership. Many times the church physical plants are in ruins, nonexistent because the community most affected is served by a new PCA church plant and rental space is being used, or power is not available for a long period of time. The need is to provide safe, comfortable sleeping quarters for our first responders who are doing the immediate heavy lifting for those in need. When church facilities are available we typically commandeer the use of classrooms, but sometimes that is not an option. Other times we have built bunkhouses, but that takes time and resources that can be better used to help people in distress.

**THE PROVISION:** After much prayer and investigation on how to meet this need for immediate lodging after a disaster we found that bunkhouse trailers were a perfect option. The use of these valuable units is trending up for faith-based relief providers. As you have prayed for us and we have prayed for this specific need to be met God has answered. Through the partnership of donors who understood the need and saw our vision for ministry, two bunkhouse units have been provided! They are currently in production, but here is a picture to give you an idea of what they will look like. Each bunkhouse will sleep 12 and will have a generator on board.

We are so thankful for your prayers! The growth of this ministry is evidence of your faithful intercession on our behalf!

**Blessings,**

*Arklie*
